

GIRA

Smart Home.
Smart Building.
Smart Life.

partner.gira.com

The new Gira
switch generation.
Versatile new
features down to
the last detail.

Gira / Design & function

We are Gira.
We are the ones with the switches.
But we're so much more.

Future-oriented.
Certified.
Responsible.

We're the guardians, innovators,
smart home pioneers, developers,
system experts, KNX partners,
shapers of the future, patent masters,
award winners and designers.

But above all, we're the ones
who listen.
To you.

Subtle, but smart.
With distinct focus on quality,
materials and functions.
And the driving force of innovation.

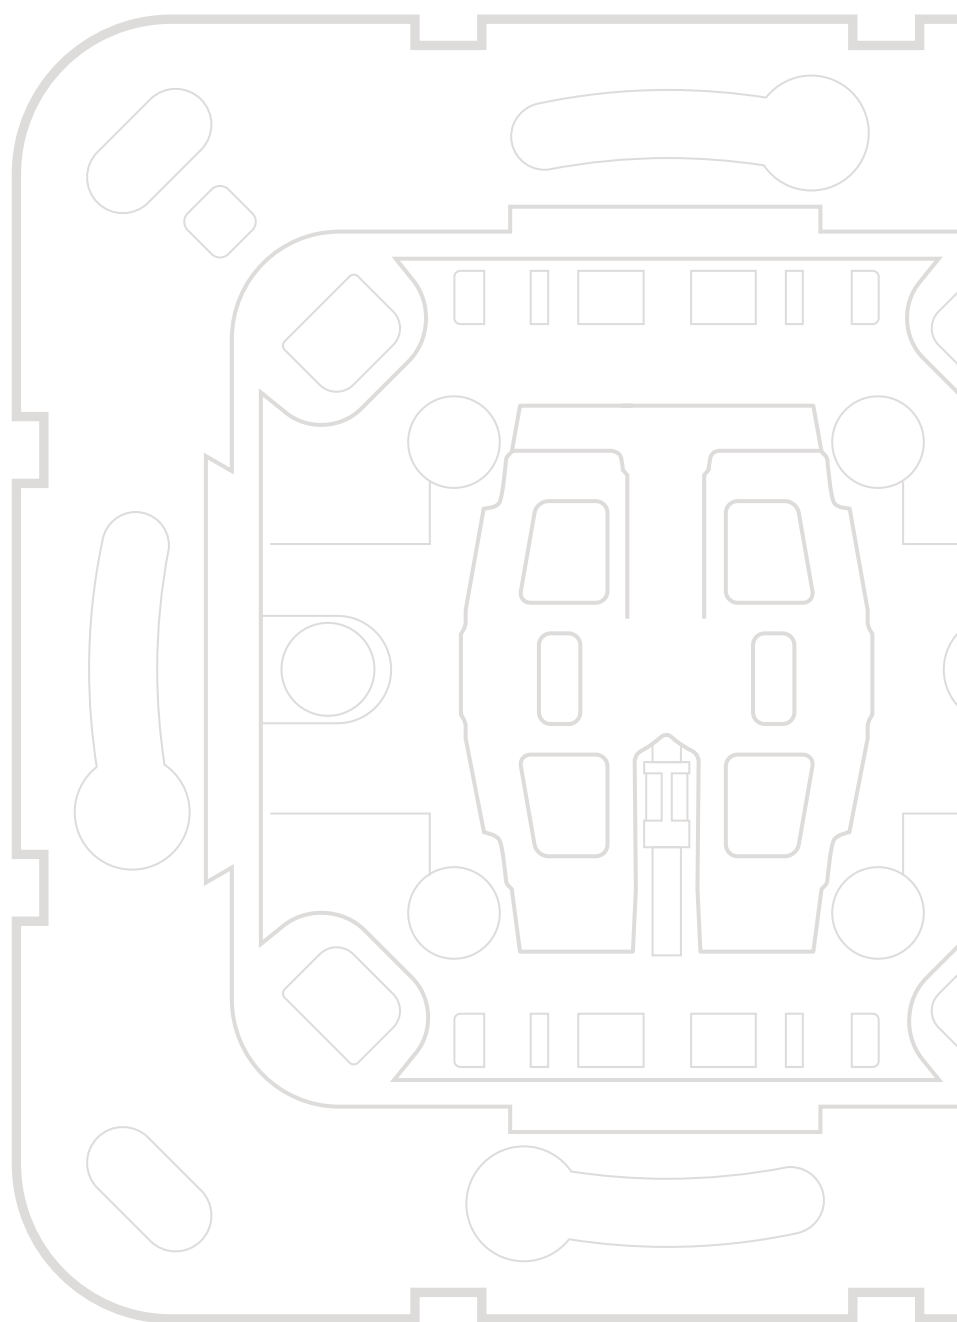

In our hearts, we are engineers
on a mission to inspire.
With new technologies,
smart applications, and
impressive attention to detail.

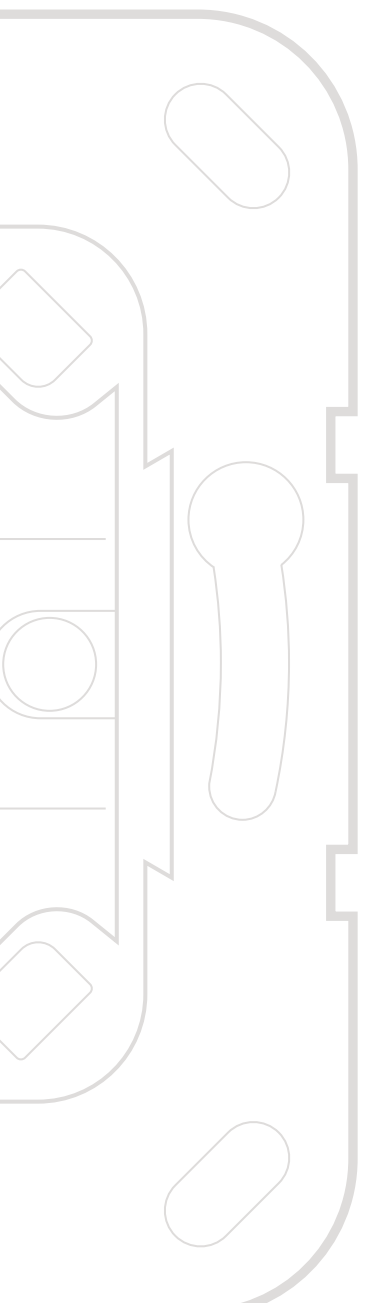

We will always work our hardest
to find the best solution for you.
With service, design and performance
made in Germany.

Because that is what we stand for.
And have been standing for since 1905.

Switching up to the next level.

The new generation of Gira switches has been completely redeveloped and impresses with sum of numerous improvements. The entire range has been reworked and optimised down to the last detail, resulting in fewer products that offer more functions to combine. Manufactured in Germany to the highest quality specifications, this new generation of switches goes far beyond the required VDE standards and is replacing the previous range in its entirety.

01

Simplified installation. Improved handling.

To make everyday work easier and speed up processes, key aspects of the design of the switching insert have been modified. Among the improvements is a standardised rocker holder.

02

⊕ Highlights, facts and benefits of the new Gira switch generation:

Optimised inventory management thanks to standardised rocker holder for rocker switches, rocker buttons and pushbutton switches.

Greater installation convenience.

More flexibility and combination options: the entire spectrum of products is now also available for the pushbutton switch.

Item no.:

01 310600

02 329603

Refined down to the smallest detail.

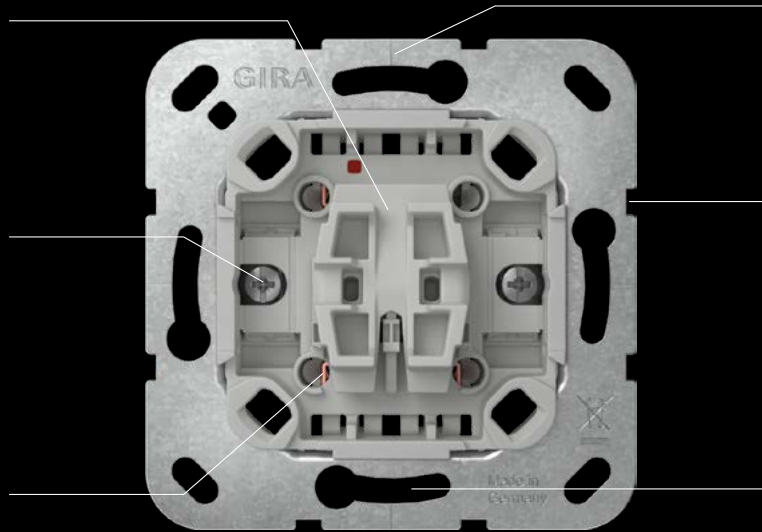

Floating switch rocker ensures automatic and precise positioning of the rocker in the frame

Quick mounting (3.5 turns per mounting claw)

Claw mounting made easier thanks to robust PZ1 / slotted / PH screw head drive

Voltage test possible from the front

Item no. 310600

Markings for central alignment when there are several flush-mounted inserts

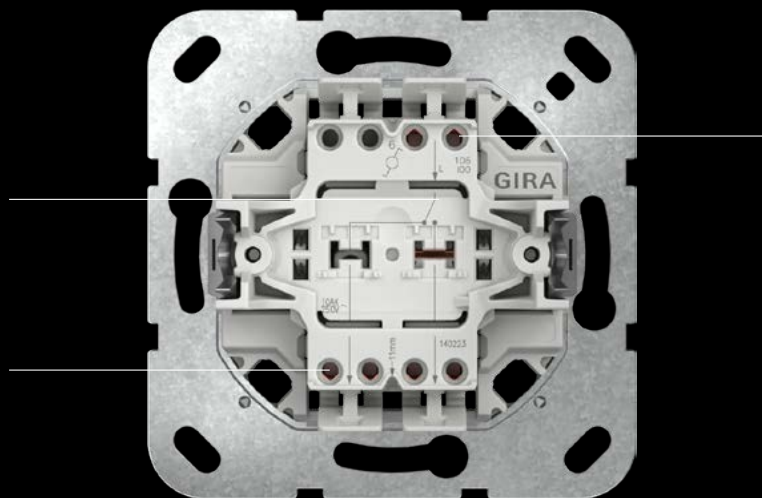

Levelling aid for multi-gang installation

Large keyhole profiles in a patented, opposing arrangement makes the insert easy to align even if the flush-mounted boxes are not properly mounted

Base marked by high-contrast, easy-to-read laser inscriptions

Conductor insertion at the rear

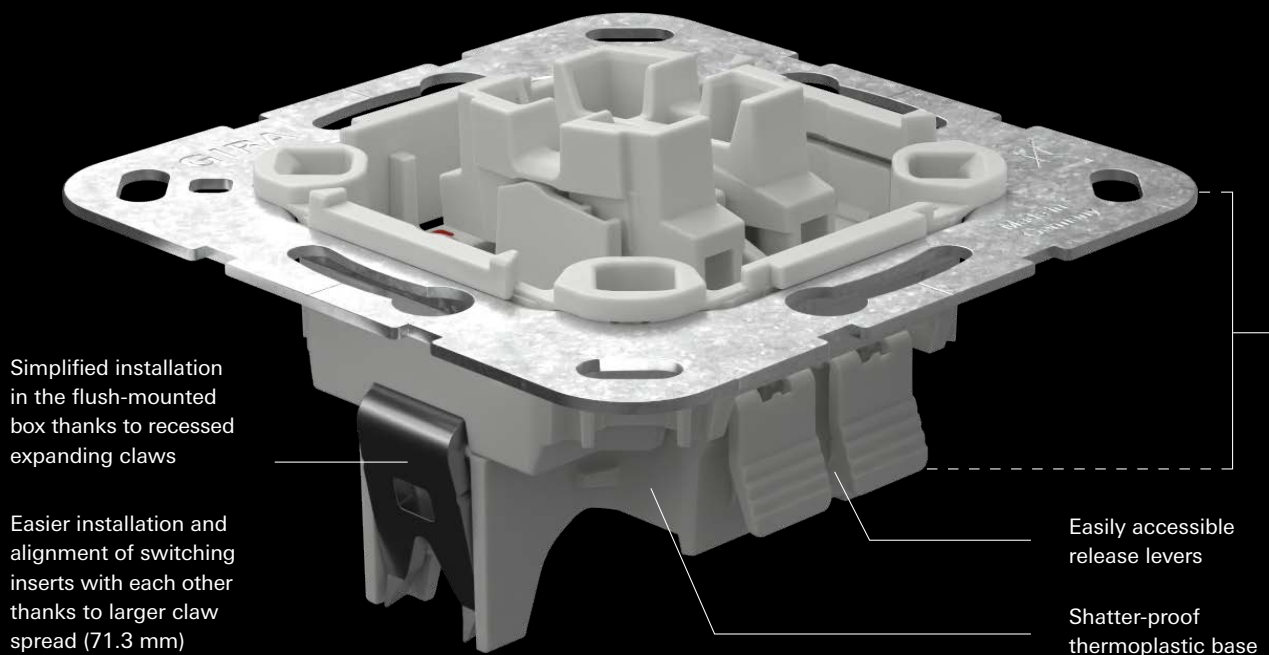

Item no. 310600

Uniform stripping length (11 mm) for switches and socket outlets makes mounting faster and more efficient.

Rigid or flexible conductors can be used

Installation-friendly, shallow plinth installation depth (only 28 mm with conductor material or 23 mm from the support ring to the underside of the plinth)

Item no. 310600

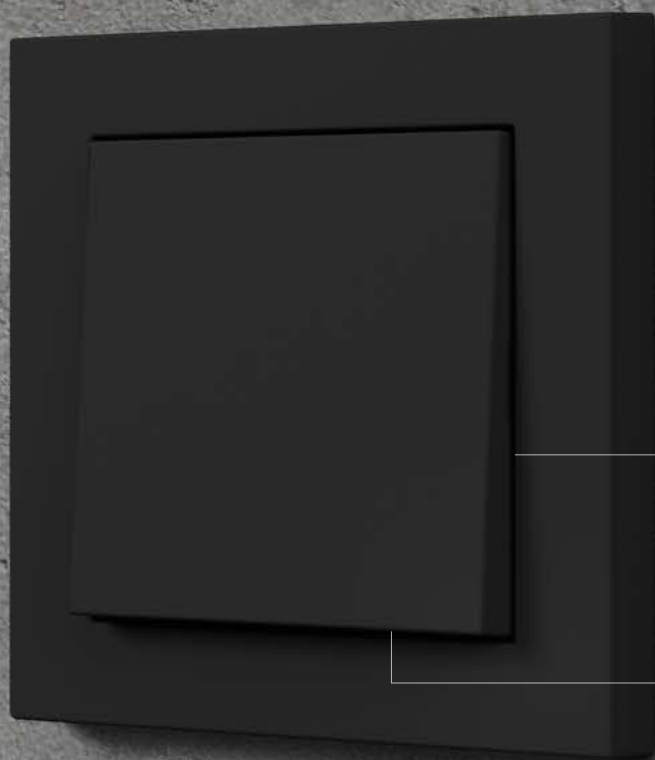

Turning the lighting element by 180° allows switching between control lighting and continuous lighting, depending on the switch

Item no. 311200

Tangible differences in the details.

The new switch generation
from Gira exhibits a compelling,
high-quality appearance.

Optimised all-round
gap between rocker
and frame

Very flat switching
angle for optimised
gap between lower
edge of rocker and
frame

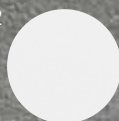

Products from the
new switch generation
are available in all
System 55 colour
variants.

⊕ Highlights, facts and benefits of the new Gira switch generation:

Uniform, all-round gap between rocker and frame.

Pleasant switching sensation due to flatter switching angle for an increased sense of quality.

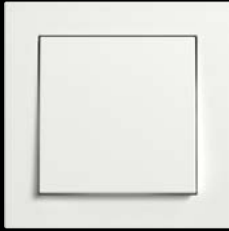

Floating rocker holder bearing automatically keeps the rocker perfectly centred in the cover frame.

The right rocker for every requirement.

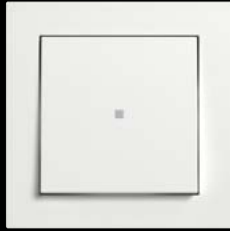

Use of the new standardised Gira symbol system throughout the entire product range.

More details available
online via the QR code
or at [partner.gira.com/
new_switch_generation](https://partner.gira.com/new_switch_generation)
from 1 February 2024

The new Gira switch generation has updated the entire system: all flush-mounted inserts up to 16 A for Gira System 55, TX_44, Gira F100, surface-mounted and water-protected surface-mounted design lines have been redesigned.

04

05

The illustrations provide examples of the various ranges.

- 01 System 55: Gira E2, pure white glossy
Item no. 329603
- 02 Gira F100 complete device,
pure white glossy
Item no. 329670
- 03 TX_44,
pure white glossy
Item no. 329666
- 04 Surface-mounted dry,
pure white glossy
Item no. 310613
- 05 Water-protected surface-mounted,
grey
Item no. 311630

The entire range at a glance.

Please be sure to note the
new item numbers in good
time when placing your order:

010600	4188 112	012603
310600	4188 70	312600 329603

From now on, item numbers for the individual inserts and rockers will start with a 3 instead of 0.

For Gira F100 switches and socket outlets, item numbers with last digits that were previously 112 will now end in 70.

The previous complete pushbutton switch devices have been discontinued and will be replaced by the new pushbutton switch inserts and standardised new rockers.

All products and delivery date information in the online catalogue at catalogue.gira.com from 1 February 2024

The online catalogue. Always up-to-date.

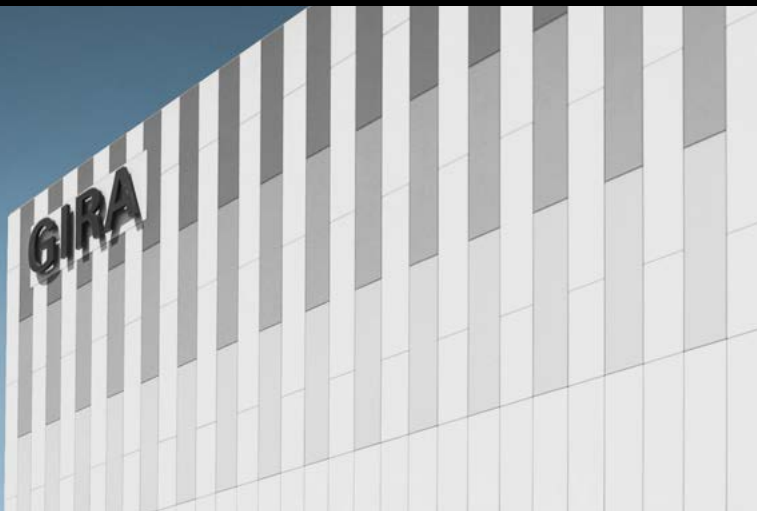

Discover the complete Gira product range from switches to intelligent system solutions. The Gira online catalogue offers you a host of useful features: you can compare products, use the intelligent search function, manage parts lists and transfer them directly to your shopping cart at many wholesalers via the Elbridge interface.

All products and delivery date information in the online catalogue at catalogue.gira.com from 1 February 2024

Being innovative means thinking beyond your own four walls.

Since 1905, we've been the ones with the switches, but we're so much more ... Because innovation is our great passion. Our pioneering spirit drives us to constantly improve and enhance the comfort of people's homes with innovative solutions.

"Made by Diversity".

Gira has been manufacturing products at its location in Radevormwald for more than 100 years. The company is fully committed to the "Made in Germany" quality standard. This is what 1,250 employees from 27 nations work for – each and every one of them with different talents, individual expertise, wide-ranging experiences and different life stories. This diversity – supported by shared values – provides the basis for our creativity, innovative strength and future viability.

Innovative technology,
award-winning design.

We have always aspired to combine maximum functionality and reliability with a unique design to create special user experiences. The extraordinary design quality and functionality of our products have been recognised by many internationally acclaimed awards.
